Spring 2018 Adams County Land & Water Conservation Tree & Shrub Sale Information

IMPORTANT INFO: This packet contains all the information you need to purchase your trees and shrubs, including descriptions and an order form. You DO NOT need to be an Adams County landowner to order, nor do the trees need to be planted in Adams County. Please read this information carefully. Mail your order, along with payment, to the address on the order form by February 23rd, 2018.

Starting January 1st, 2018 credit card payments available online for MasterCard, Visa, Discover, and American Express. If you would like to process your payment this way please see the process below.

ORDER DEADLINE: Friday, February 23rd, 2018. As order deadline grows nearer, some species offered may face availability limitations, so order EARLY to be best-assured of quantities desired.

PICK-UP DATE & LOCATION: Friday, April 27, 2018 from 11:00 a.m. until 6:30 p.m. and Saturday, April 28, 2018 from 8:30 a.m. until 10:00 a.m. Pick-up location is at the Adams County Fairgrounds on Highway J, approximately ½ mile west of Highway 13, in Friendship.

TREE PLANTING ASSISTANCE: The Adams County Land & Water Department has tree planters available for rent. Both are used with a three point hitch and are on a trailer with a 2 inch ball. Rental fee is \$20.00 per 1,000 trees. Rental dates are on a first come, first serve basis so reserve early. *(This service is managed solely by the DNR Forestry Office at 608-339-3386.)*

THE CENTRAL WISCONSIN WINDSHED PARTNERS will plant your trees for as little as .25 cents per tree. Why not leave it to experienced professionals? Call toll-free, at 888-249-5424, or visit their website at <http://www.co.portage.wi.us/departments/planning-zoning/central-wisconsin-windshed-partnership-group>

ADAMS COUNTY LAND & WATER CONSERVATION DEPARTMENT 2018 ANNUAL TREE & SHRUB SALE

ADAMS COUNTY LAND & WATER CONSERVATION DEPARTMENT 2018 ANNUAL TREE & SHRUB SALE

Evergreen Conifers

Pine

Pine—Norway Red: Most versatile conifer for the area. Grows over 35 ft. Rapid growing tree with 4” to 6” long, glossy-green needles. Does well in sandy, dry soil. Many uses: timber, windbreak, ornamental and Christmas tree.

Pine—White: Grows over 35 ft. Vigorous growing, tree with long, soft bluish-green needles. Tolerates shade and prefers sandy loam soil. Used in ornamental plantings.

Fir

Fir—Fraser: Referred to as the Cadillac of Christmas trees. Excellent fragrance and exceptional needle retention. Likes cool, moist, well-drained soil with full to partial sun. Will not do well in heavy, wet clay soil.

Spruce

Spruce—Colorado Blue: Grows over 35 ft. Slow growing, densely formed tree with stiff, silvery-blue to bluish-green needles. Thrives in dry, well-drained soil. An excellent ornamental and background tree.

Spruce—Norway: Grows over 35 ft. Fastest growing spruce with dark green needles and draping branches. Good ornamental or windbreak tree. Grows well in most conditions.

Spruce—White: Moderate growing tree with bluish-green needles, and short, dense branches. A popular Christmas tree as well as an ornamental and windbreak tree. Endures drought conditions well.

Deciduous Trees and Shrubs

Birch

Birch—White: Grows 50-75 ft. This is a strong tree that stands up to ice and snow, as well as salt. It is tolerant of many types of soil, even nutrient-poor soils, but grows best in moist, well-drained, loose soil.

River Birch: Reddish brown exfoliating bark. Resistant to bronze birch borer. Tolerant to many soil conditions. Grows 40-70 feet tall and 40-60 feet wide.

Shrubs

Cranberry—American Highbush: Attractive foliage turns red and orange in the fall. Flat clusters of white flowers are followed by red berries. Grows to 8 ft.

Crabapple—Midwest: Grows 15 ft. A moderately rapid growing medium size tree. Densely branched and oval shaped. Blossoms snowy white. Dark olive green leaves. Fruit size ¼ - ½” diameter. Excellent windbreak and wildlife habitat.

Dogwood—Red Osier: Grows 7-9 ft. and spreads 8-12 ft. A broad erect grower with dark blood-red branches. White flowers are followed by white berries. Good for soil erosion and food and cover for wildlife.

Elderberry: Grows 9 ft. or taller and spreads 5-12 ft. This is a fast growing small tree/shrub that tolerates a wide range of growing conditions. Small white flowers grow

in large clusters in early summer, followed by edible purplish black fruit. Attractive to birds.

Hazelnut: Small shrub often in clumps reaching 12 ft. in height. Edible brown nuts. Grows best in moist soil, well-drained soils but will adapt to most types of soils. Full sun or deep shade. Attracts wildlife.

Maple

Maple—Sugar: Slow to medium growth. Height 100 ft. Outstanding native shade tree. Dark green leaves turn yellow to orange to fiery red in fall. Grows in most soil types. Sap used for maple syrup. Used for ornamental, lumber, and wildlife habitat.

Maple—Silver: Very hardy, easy to grow tree, and will tolerate a wide variety of soils. One of the best trees to grow where few others will survive. Grows to 60 ft.

Maple—Red: Mature height 50-60 ft. Shade tree with glossy green leaves. Tolerates wet soils. Fall colors vary from yellow to scarlet.

Poplar—Hybrid: Fast growing tree. Grows 50 ft. and spreads 30 ft. Large leaves give it lots of shade in a hurry. Soil adaptable.
